(Special Issue: The First Conference on Amphiphiles at Interface - From Structure Control to Properties)

Editorial	
Amphiphiles at interfaces — from structure control to properties	
J. Li and R. Miller	
Myelin basic protein-lipid complex: an atomic force microscopy study N. Lanteri, R. Rolandi (Genoa, Italy), P. Cavatorta, E. Polverini (Parma, Italy), P. Riccio (Potenza, Italy) and A. Gliozzi	
(Genoa, Italy)	
Fixation of single-stranded DNA nucleotide by self assembly technology L. Lin, J. Li and L. Jiang (Beijing, People's Republic of China)	1
Protein adsorption at a static and expanding air—water interface: a neutron reflection study	1
A.A. van Well and R. Brinkhof (Delft, The Netherlands)	1
Electric linear dichroism. A powerful method for the ionic chromophore-colloid system as exemplified by dye and	
montmorillonite suspensions	
K. Yamaoka, R. Sasai and N. Takata (Higashi-Hiroshima, Japan)	2
The aggregation and phase separation behavior of a hydrophobically modified poly(N-isopropylacrylamide)	
X. Shi, J. Li, C. Sun and S. Wu (Beijing, China)	4
Molecular orientation as a controlling process in adsorption dynamics	
F. Ravera, L. Liggieri (Genova, Italy) and R. Miller (Golm, Germany)	5
pH value and ionic strength effects on the adsorption kinetics of protein/phospholipid at the chloroform/water interface	
L. Yan, Y. Zhang, G. Cui and J. Li (Beijing, China)	6
Effect of the surface polarization on the nucleation at liquid/gas interfaces	
B. Radoev and M. Avramov (Sofia, Bulgaria)	6
Stability investigation of the mixed DPPC/protein monolayer at the air-water interface	
H. Zhang, X. Wang, G. Cui and J. Li (Beijing, People's Republic of China).	77
Surface dilatational rheological study of the trans-cis isomerisation of copolymers with trifluoromethoxy substituted	
metacrylate monolayers	
R. Wüstneck (Potsdam, Germany), D. Prescher (Teltow, Germany), S. Katholy (Potsdam, Germany), G. Knochenhauer	0.
(Teltow, Germany) and L. Brehmer (Potsdam, Germany)	83
Mixed monolayers of phospholipids with a viologen and the electrochemical properties in Langmuir-Blodgett films	93
DJ. Qian, C. Nakamura and J. Miyake (Ibaraki, Japan)	9.
JM. Ouyang, ZM. Zhang, CX. Huang, XQ. Yao, HY. Liu and XM. Hu (Guangzhou, PR China)	99
Penetration of human apolipoprotein H into air/water interface with and without phospholipid monolayers	,
Yt. Sun, Sx. Wang and Sf. Sui (Beijing, PR China)	105
Dynamic characterization of phospholipid/protein competitive adsorption at the aqueous solution/chloroform interface	10.
J. Wu, J.B. Li, J. Zhao (Beijing, People's Republic of China) and R. Miller (Golm/Potsdam, Germany)	113
L-Cysteine chemisorption on gold: an XPS and STM study	
G. Dodero, L. De Michieli, O. Cavalleri, R. Rolandi, L. Oliveri, A. Daccà and R. Parodi (Genoa, Italy)	121
Affinity aspects of HBsAb-HBsAg interaction on the liquid-solid interface	
D. Wang (Nanjing, PR China), D. Jiang (Guangzhou, PR China) and C. Yuan (Nanjing, PR China)	129
Co-sensitization of microporous TiO ₂ electrodes with dye molecules and quantum-sized semiconductor particles	
Yc. Shen, H. Deng, J. Fang and Z. Lu (Nanjing, PR China)	135
Electrochemical studies for the formation of sodium lauryl sulfate monolayer on an octadecanethiol-coated gold electrode	
X. Cui (Shanghai, PR China), D. Jiang, P. Diao, J. Li, Z. Jia and R. Tong (Shijiazhuang, PR China)	141
Characterization of DNA hybridization on the optical fiber surface	
H. Lü, Y. Zhao, J. Ma, W. Li and Z.H. Lu (Nanjing, PR China).	147
Interactions of an amphiphilic thiacarbocyanine dye with polypeptides and DNA at the air/water interface	1.53
M. Liu, J. Lang (Beijing, PR China) and H. Nakahara (Urawa, Japan)	153
Effect of LB monolayers on the mixed crystals of lead and barium sulfate L. Lehui, W. Liying, Z. Guangfu, C. Haining and X. Shiquan (Changchun, PR China)	161
Monolayer formation and Langmuir–Blodgett films of benzimidazole derivatives without alkyl chain	101
J. Cai, M. Liu, C. Dong, J. Li, J. Tang and L. Jiang (Beijing, PR China)	165
v. cui, m. Elu, c. Dong, v. El, v. rung und E. viung (Donning, T. Chinia)	.00

Monolayer behaviors and LB films of dihydroxo (phthalocyaninato) silicon and its polymer — one-dimensional phthalo-	
cyaninato-polysiloxanes	171
Pl. Chen, Dh. Tang, Xb. Wang, H. Chen, Mh. Liu, Jb. Li and Xh. Liu (Beijing, PR China)	1/1
D.S. Valkovska, K.D. Danov and I.B. Ivanov (Sofia, Bulgaria)	179
A Fourier transform infrared study on water-induced reverse micelle formation of block copoly(oxyethylene-oxypropylene-	
oxyethylene) in organic solvent	
C. Guo, HZ. Liu and JY. Chen (Beijing, China)	193
A.c. impedance studies of the mechanism of electron transfer across TCNQ modified Au/thiol/lipid bilayer	
P. Diao, M. Guo, D. Jiang, Z. Jia, D. Gu, R. Tong (Shijiazhuang, People's Republic of China) and B. Zhong (Taiyuan,	
People's Republic of China)	203
Studies of concentrated surfactant solutions using the maximum bubble pressure method	
N.A. Mishchuk (Kiev, Ukraine), V.B. Fainerman (Donetsk, Ukraine), V.I. Kovalchuk (Kiev, Ukraine), R. Miller (Golm,	207
Germany) and S.S. Dukhin (Kiev, Ukraine)	207
W. Li, L. Huo, D. Wang, G. Zeng, S. Xi (Changchun, PR China), B. Zhao, J. Zhu, J. Wang, Y. Shen and Z. Lu (Nanjing,	
PR China)	217
Formation of organized adsorption layers by amphiphilic dendrimers	
T. Imae, M. Ito, K. Aoi, K. Tsutsumiuchi, H. Noda and M. Okada (Nagoya, Japan)	225
Some amphiphilic polymers at interface and functional films	
J. Shen, L. Wang and X. Zhang (Changchun, People's Republic of China)	235
Interactions between alkali/surfactant/polymer and their effects on emulsion stability	
K. Wanli (Anda, People's Republic of China), L. Yi, Q. Baoyan (Daqing, People's Republic of China), L. Guangzhi	
(Anda, People's Republic of China), Y. Zhenyu and H. Jichun (Daqing, People's Republic of China)	243
The effects of surfactants on the activity of invertase and superoxide dismutase of soybean leaf in vitro and in vivo	249
Y. Xiaoli, L. Xuegang, S. Changbin, C. Shihong and W. Qiang (Chongqing, People's Republic of China) Studies on cloud point of agrochemical microemulsions	249
F. Chen, Y. Wang, F. Zheng, Y. Wu and W. Liang (Beijing, People's Republic of China)	257
Viscosity of oil and surfactant binary solution	231
Z. Zhou, M. Li and H. Yan (Beijing, PR China)	263
Calendar	267
